

EHS DIRECTOR'S GROUP

- 1) **CAMPUS PROFILE** (Prepare a brief profile of your institution that would allow another EHS director to make some initial comparisons between his/her institution and yours. Including total student #, total faculty/staff #, # of laboratories, total research \$\$ and whether you have a medical, dental, vet or agricultural school are good factors for this profile. Also any factors that would distinguish your institution from others in terms of EHS staffing/funding.)

- 2) **CURRENT/TOP PROBLEMS CONCERNS, INITIATIVES, PROGRAMS THAT EHS IS WORKING ON AT YOUR INSTITUTION** (This is intentionally broad so that you can decide what if anything you want to share with other EHS directors. Please try to list 2-3)
